Torres Capitol College Inc.
P-2B Sayre Highway, Panadtalan, Maramag, Bukidnon.

Dear Sir/Madam,

I am writing to express my interest in applying for the **IT Support / IT Support Specialist** position. As a fourth-year Bachelor of Science in Information Technology student, I have developed knowledge and skills in programming, web application development, system development, and technical troubleshooting. I am interested in this position because it will allow me to apply what I have learned in my studies while gaining valuable experience in a professional IT environment.

Throughout my studies, I have worked on various academic projects, including developing a POS system, creating web-based applications, and developing our capstone project, **"Green Wi-Fi: A Bottle Recycling Incentive System for Internet Access."** These projects allowed me to practice programming, system development, troubleshooting, and problem-solving. I am a hardworking and willing to learn individual who can work well with others, and I am eager to improve my technical skills and contribute positively to your organization.

Respectfully,

ANGELO MADOLARIA
Applicant

OBJECTIVE

A motivated fourth-year Bachelor of Science in Information Technology student seeking an **IT Support / IT Support Specialist** position where I can apply my knowledge and skills in software, programming, system development, and technical troubleshooting. I am eager to gain professional experience, improve my technical abilities, and contribute positively to the organization while continuing to learn and grow as an IT professional.

PROFESSIONAL EXPERIENCE

- Developed and worked on academic information technology systems, including a Point-of-Sale (POS) system.
- Developed a web-based application as part of academic projects, applying programming, database, and web development skills.
- Developed a capstone project, **"Green Wi-Fi: A Bottle Recycling Incentive System for Internet Access,"**
- Performed testing and debugging of systems to identify problems and improve their functionality.
- Worked with team members during academic projects and contributed to system development, testing, and troubleshooting.
